

Business Debtor Management by Accountability

How To Prevent and Reduce Bad Debt in Your Business

One of the frustrating parts of doing business is that people who owe you money do not pay you, isn't it?

Accountability provides you with the debtor management tools to manage and control your debtors list and in a very cost effective way to:

- Objectively decide on credit terms
- Motivate bad payers to pay promptly
- Use lawyers on a contingency basis
- Flag your industry about bad payers

ACCOUNTABILITY is a South African defaulter database and through TransUnion Credit Bureau a credit active database of 22 million consumers and 1.7 million businesses.
